INTRODUCTION & WARRANTY

Thank you for selecting and buying V-TAC SMART LED Lighting. V-TAC will serve you the best. Please read these instructions carefully before starting the installation and keep this manual handy for future reference. If you have any other query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best. The warranty is valid for 2 years from the date of purchase. The warranty does not apply to damage caused by incorrect installation or abnormal wear and tear. The company gives no warranty against damage to any surface due to incorrect removal and installation of the product. The products are suitable for 10-12 Hours Daily operation. Usage of product for 24 Hours a day would void the warranty. This product is warranted for manufacturing defects only.

Caution, risk of electric shock.

This marking indicates that this product should not be disposed of with other household wastes.

SAFETY WARNING

1) Lamps are limited to indoor use and are not advisable for use in humid environment

2) Lamp is to be used in well ventilated areas and normal installation.

3) Caution: This lamp is NOT to be used in a totally enclosed fixture which is not good for heat emission. Please do not install the lamp in enclosed space as it will shield the wifi signal due to which resulting in the poor functioning of the product.

4) Lamps and lanterns cannot be installed on the surface of ordinary combustible materials. Increase in temperature is normal for lamps.

5) Do not exert external force or throw on the lamp.

6) Lamps should be stored in cool/dry place. Always make sure the environment is clean before installing the lamp.

7) Do not discard the lamps with regular trash. Lamps are made with electronic components and should be properly disposed at designated locations with unified treatment like traditional electronic equipment.

NOTE

1. This device requires Wi-Fi Frequency 2.4Ghz

2. Indoor use only

3. Operating frequency (maximum transmitted power) 2400MHz -2483.5MHz (20dBm)
